Oak Creek Water Company No. 1

Serving West Sedona Quality Water Since 1953

MEETINGS TO REMEMBER

DWID **July 16, 2019 7:00 P.M.**

ANNUAL **August 13, 2019 7:00 P.M.**

EMERGENCY RATE INCREASE

Thank you everyone for your support. Between the unexpected costs at the end of 2018 (as pointed out in previous letters) and the below average revenue collected this past rainy Spring, the surcharge has proven to be a necessity. Progress is now being made to replace those leaking valves and out of service hydrants.

PERMANENT RATE INCREASE

As part of the emergency rate increase, the Judge's ruling requires OCW to file a standard rate increase. This rate increase will be filed in a couple of months. You should receive the Arizona Corporation Commission Public Notice documents some-time this Fall for public comment. The estimated implementation of this rate increase is early 2020. We will have the history of our rate increases at the Annual Meeting.

DWID MEETING

The Yavapai County Assistant Administrator has asked to come to our meeting. He will not be part of the presentation but available to answer any questions that might come up. We have the benefit of the County Airport as one of our customers. The County wants to make sure we are informed and make the best educated decision .

REMINDER: IF YOU CAN'T NOT MAKE THE ANNUAL BOARD MEETING PLEASE REMEMBER TO SUBMIT YOUR PROXY.
